

NEW CARTRIDGE MANUFACTURING TECHNOLOGY

Sellier & Bellot launches a brand new, modern technology for the manufacture of 22 Long Rifle cartridges.

Highly accurate bullets with a new design

- Manufactured from precision, graphite-coated lead slug
- Consistently precise bullet shape down to one hundredth of a millimetre
- Precise bullet weight within a tolerance of ± 0.02 g

Superior loading

- Minimum differences in bullet speed
- Exact primer dose within ± 0.002 g
- Propellants within ± 0.01 g

CLUB

Cartridges in this series achieve excellent accuracy due to new manufacturing technology.
